Investment Highlights

A premier, name-brand manufacturer of thousands of customizable exterior and interior ceramic tiles

Intent upon capitalizing upon China's urbanization trend, rising GDP and people's preference for real estate ownership

A shake-out of smaller competitors who cannot comply with pollution regs could ultimately lead to marketshare gains

Motivated distributors and direct company sales to large developers drive revenue

Modern plant and R&D enables competitive advantage; glazed brick ceramic tiles for roofing complements current portfolio

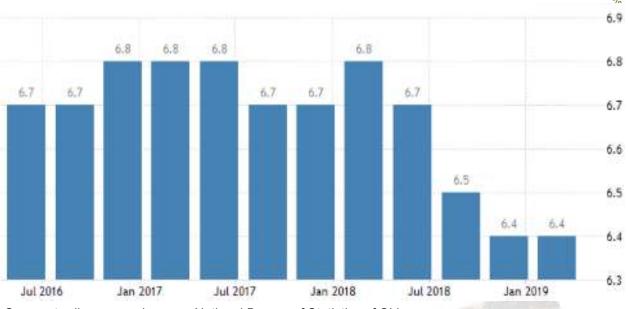

Real estate, construction and associated sectors are estimated to comprise 25% of China's GDP

China's Macroeconomic Environment

- The Chinese economy is undergoing a structural change, transitioning from manufacturing to services and from investment to consumption.
- ➤ GDP grew by 6.4% in 1Q 2019, maintaining the same rate as 4Q 2018, the weakest quarterly growth since 1Q 2016.

China's Annual GDP Growth Rates (% Changes)

Source: tradingeconomics.com, National Bureau of Statistics of China

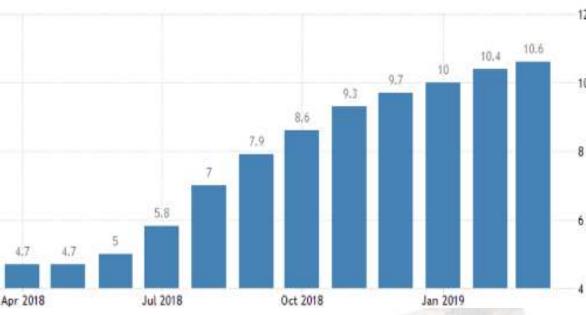

- ➤ Government stimulus measures could propel the Chinese economy above the current consensus of 6.2% GDP growth for the full year of 2019. However, reforms remain important along with efforts to deleverage debt.
- Real estate investment could continue to moderate in 2019 as the Chinese government is enacting numerous measures to curb excessive speculation.

China's Real Estate Market Environment

- Real estate is estimated to be 25% of China's GDP; a healthy real estate sector is important to China's growth.
- Average new home prices in 70 cities rose 10.6% y-o-y in March 2019, the 47th straight month of gains and the largest since April.
- On a month-over-month basis, prices rose 0.6% in March compared to a 0.5% rise in February.

Newly Build China Home Prices (Yr-o-Yr Change)

- ➤ To curb speculation, Chinese authorities have, from time to time, imposed lending curbs, higher mortgage rates and down payments, a price cap on new developments and restrictions on the number of homes each family can buy.
- Programs to renovate inner city housing stock, and to develop rental homes and affordable housing projects could spur real estate and construction market activity.

Urbanization Trend Provides Underpinning to Real Estate Construction China

- ➤ China's total urban population reached 768 million in 2015 vs. 450 million in 2001; according to projections, nearly 70% of the population will live in urban areas by 2035.
- ➤ The scale and pace of China's urbanization trend is unprecedented: 219 cities of more than one million and an aggregate urban population nearing 1 billion are projected by 2025,
- ➤ Tier I cities are expected to account for only 10% of China's commercial real estate activities by 2020, highlighting the significant development opportunities in Tier II and Tier III cities.

A Long-Term Trend of Strong Real Estate Growth in China

- ➤ The scale of construction in China is immense: the expected future increase in cities is equal to the residential floor space of a number of European cities today
- CCCL believes that sound underlying demand for housing is sustainable throughout the next decade although corrections due to overbuilding could occur
- ➤ There are fewer restrictions by municipal governments in Tier II and Tier III cities
- CCCL believes that the land supply in 2019 in Tier II and Tier III cities could rebound and create demand for ceramic tiles
- Central government initiatives stipulate for 36 million new affordable housing units at a cost of nearly \$800 billion
- Renovation and upgrading of existing properties could also spur demand

Competitive Landscape

- ➤ China's outdoor ceramics tile industry is highly fragmented with hundreds of manufacturers; CCCL estimates its current market share in China to be 5%.
- ➤ The Company believes that more than 200 manufacturers are located in Jinjiang, with a combined annual production volume of 70% of China's total production volume
- ➤ Others are mainly located in Foshan, Zibo, Linyi, and Dehua, specializing in manufacturing interior wall and floor ceramic tiles
- Competition is based on quality, branding, service and product diversity, CCCL's strengths
- ➤ Major competitors include:
 - White Rabbit Ceramics
 - Foshan Shiwan Yulong Ceramics
 - Jinjiang Haoyuan Ceramics
 - · Jinjiang Wanli Ceramics

Key Market Trends

- > China's long-term urbanization trend CCCL is a prime beneficiary
- Government policies support the real estate sector rate cuts, lower down payment requirements and property sales have spurred recent activity
- New products New outdoor ceramic tiles products are "Green", lighter, heat insulating and noise-reducing. The company's production line to manufacture glazed brick ceramic tiles deepens the portfolio even more.
- ➤ Potential of Tier II and III Cities CCCL believes that much of the growth in China's GDP is being driven by economic activity in Tier II and Tier III cities.
- Distribution and Direct Sales China's outdoor ceramic tile industry relies heavily on distributors; an estimated 83% of total sales are made through distributors. As competition intensifies, more manufacturers will bid for large projects in an attempt to sell products to real estate developers directly.
- Stricter Environmental Standards Exits by smaller competitors to occur as less well-financed companies cannot comply with stricter environmental regulations.

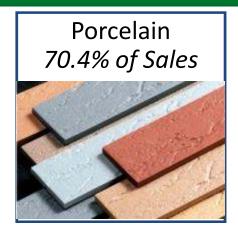

Core Competitive Advantages

- > Experienced management and a culture of hard work and success
- Premier brand repeat winner of "Asia's 500 Most Valuable Brands" award among many other awards and certifications
- > R&D the 20 person team develops new products and an energy recycling system that reuses excess heat and energy that saves up to 20% of cost
- > Manufacturing that is modern and efficient: ISO certified, international manufacturing equipment utilized where nearly all projects are built to order
- ➤ Enhanced marketing and sales abetted by a state-of-the-art product showroom that emphasizes CCCL's superior capabilities. Additional enhancements of the Hengda Exhibition Hall which should drive sales to a potentially consolidating large property sector.
- ➤ New subsidiary formed to transact with large entities such as China State Decoration Group Co., Ltd.

Company Growth Strategy

- 1) Market Share Gain as a Result of the Industry Shake-Out of the Last 2 Years

 A significant number of competitors could exit the space due to a tougher competitive environment and new energy guidelines.
- 2) Leverage Customization Capabilities due to Modernized Plant Efficiencies

 Enables accessibility to the company's customized and innovative product offerings
- 3) Penetrate New Markets using Tier II and Tier III Marketing Experience
 Urbanization coupled with demographic changes will remain compelling domestic
 trends for years to come
- 4) Focus on Remodeling and Renovation of pre-1998 Built Residential Units

 Massive growth in upgraded units is expected as personal incomes can now afford
 better infrastructure and expansion of traditionally small units.
- 5) Capitalize Upon Expected Consolidation Among Large Property Developers

 The company's deep product platform, modern manufacturing capabilities and strong
 balance sheet enable it to optimally service larger customers
